

Environmental Policy

It is the policy of **Connect NDT Limited** to effectively control all aspects of our work activities throughout the organisation to ensure that operations are carried out with the minimum possible effect on the environment.

The organisation is committed to the prevention of environmental contamination and pollution and to preserving the environment around us for future generations. At Connect NDT we encourage responsible behaviour and ask all personnel to contribute towards continual improvement in both our systems and our performance and to assist in the preservation of the natural environment.

Connect NDT Limited shall comply with all applicable legal requirements and any other additional requirements necessary in relation to the environmental aspects and impacts presented by our work activities. Our directors are committed to the values and policies set out in this document and to continual development of our Environmental Management processes.

Connect NDT Limited top management establishes environmental objectives annually to provide goals for assuring a strong environmental conscience throughout the organisation. These objectives are reviewed periodically for suitability and improved where necessary. Objectives are cascaded to all levels and all positions within the organisation.

The Management recognises the requirements of ISO 14001:2007 and commits to the organisation's processes complying with them where appropriate.

The Management are also committed to providing adequate resources to ensure all company objectives can be achieved.

It is also the responsibility of the Management to ensure that this Policy is understood and implemented at all levels within the company and periodically reviewed to ensure it remains appropriate to the organisation.
